EDUCATION

Duke University

Durham, NC

MS in Interdisciplinary Data Science; GPA: 3.78/4.0

Expected May 2025

- Relevant Courses: AI Security and Privacy, Principles of Machine Learning, NLP, Calculus and Probability
- Honors & Awards: MIDS Scholarship of 20% Tuition Discount

University of Rochester

Rochester, NY

MS in Teaching English to Speakers of Other Languages; GPA: 3.9/4.0

Graduation Date: July 2016

- Relevant Course: Master's Research Methods (Quantitative & Qualitative)

Inner Mongolia Agricultural University

Hohhot, China

BA in English; GPA: 3.1/4.0

Graduation Date: July 2013

- Relevant Courses: Advanced Math, Linear Algebra, Basics of Computer Engineering, VB Programming, C Programming

RESEARCH EXPERIENCE

Master's Capstone Project, Duke University

Durham, NC

Climate TRACE: Estimating Global Greenhouse Gas Emissions from Buildings

August 2024 - Present

- Creating machine learning features from geospatial data to estimate building energy use and predict global greenhouse gas emissions.
- Assessing model accuracy against ground truth data and provided uncertainty estimates to support decision-making.

Privacy and Security of HCI, Duke University

Durham, NC

[InSPIRe Lab](#): Privacy and Security of AI-enabled Social Chatbots

May 2024 - Present

- Conducted comprehensive literature review, obtained IRB approval, applied for qualitative research funding, and developed a qualitative codebook for analyzing privacy and security in AI-enabled social chatbots.
- Performed quantitative power analysis and am currently applying Cumulative Link Mixed Models (CLMM) to analyze data collected via Qualtrics, preparing findings for publication.

Master's Thesis, University of Rochester

Rochester, NY

Educational Technology Enabling Non-native English Teachers to Succeed in ESL Contexts

January 2016 - June 2016

- Synthesized the existing literatures to investigate the potential effects of educational technology on non-native English teachers and their teaching in ESL contexts.
- Found that educational technology provides realistic pathways to support non-native English teachers in this context.

Quantitative & Qualitative Research, University of Rochester

Rochester, NY

What is the Role of the University of Meeting International Students' Need: A Mixed Method Research Study of the University of Rochester

January 2015 - March 2015

- Critiqued quantitative and qualitative research to acquire the appropriate rationale to conduct my research.
- Conducted semi-structured interviews within Warner Education Graduate School, analyzed interview transcripts, and authored an essay on findings related to international students' needs.

Graduation Design, Inner Mongolia Agricultural University

Hohhot, China

Analysis of Transcendentalism in Walden

March 2013 - June 2013

- Analyzed the book, *Walden*, through the lens of transcendentalism and illustrated the author's call for returning to nature and simplicity.

PROJECTS

[Global Semi-finalist of Microsoft's Imagine Cup 2024](#)

April 2024

AI Companion Robot BunnyBot

- Developed an award-winning healthcare companion robot using Raspberry Pi, Azure, and OpenAI APIs.
- Leading product management data pipeline and API software development, while collaborating with cross-functional teams to ensure successful project implementation, and timely delivery.

Data Engineering Project, Duke University

December 2023

Deploying Flask Apps to Azure Web App via Docker Hub

- Developed a Python-based Flask book recommended system to Azure and load the test with Locust.
- Managed Docker Hub and Azure deployment, co-authored [GitHub repositories](#), contributed to [Microsoft blog](#) publications, and received [recognition from Microsoft's Principal Cloud Advocate team](#).

Beginner Award of Generative AI Hackathon, Duke University

November 2023

AI Language Learning Product "TalkwithMe"

- Developed a customized [AI-powered English learning tool](#) using Azure's Text-to-Speech and Pronunciation Assessment APIs.
- Invited to author a [Microsoft blog](#) post with my account, showcasing the innovation behind my product.

WORK EXPERIENCE**Yongxiang Renewable Energy Technology Co., Ltd.**

Hohhot, China

Analyst

September 2021 – May 2023

- Leveraged **Python** to create and manage sales ROI dashboards, incorporating key statistics and trending analysis, which led to a 3.3% reduction in customer issues and a 2.8% increase in GMV growth.
- Coordinated and collaborated with other departments, such as engineering and marketing, to lead product training for the sales team.
